PAVEL CHERKASHIN

Partnership Wrangler (Remote) • Commercial Partner Channels • Systems Integration Ecosystems • Developer Tooling

San Francisco, CA (PT) / Remote | pavel@mindrock.capital | linkedin.com/in/pavelcherkashin | github.com/minutta | x.com/cherkashin

Operating Focus: *"Unlocking net-new commercial channels from the ground up for PostHog. Pragmatic, autonomous builder combining executive leadership in enterprise software distribution and partner alliances (Country Manager at Siebel Systems, Founder & CEO of systems integration agency Sputnik Labs) with hands-on technical proficiency in modern APIs, data stacks, and developer tooling ecosystems. Grounded in enterprise software distribution models, agency partner incentives, and developer enablement to turn technical platforms into high-velocity revenue channels. Built for small autonomous teams, zero bureaucracy, and rapid execution."*

CORE PARTNERSHIP, COMMERCIAL & TECHNICAL CAPABILITIES

- **Ground-Up Channel Development:** Designing and executing partner-led commercial motions; establishing clear commercial terms, commission/referral frameworks, and co-selling workflows without administrative bloat.
  - **Commercial Partner Models:** Structuring reseller frameworks, multi-tier referral models, and joint go-to-market alignment to streamline enterprise evaluation, procurement, and onboarding cycles.
  - **Developer & Platform Integrations:** Technical evaluation of integrations with modern developer platforms (e.g. Vercel, Supabase) and data stacks (ClickHouse, PostgreSQL), aligning developer utility with partner incentives.
  - **Agency & Implementation Ecosystems:** Direct systems integration domain expertise; designing practical, developer-oriented partner enablement and first-build technical verification workflows.
  - **Commercial Agreement Architecture:** Drafting, contract structuring, multi-party revenue-share terms, and enterprise software distribution models with clear legal and operational boundaries.

PARTNERSHIP, COMMERCIAL & SYSTEMS LEADERSHIP EXPERIENCE

Mindrock Capital & Autonomous Systems Mesh — *Managing Partner & Lead Architect* | 2020 – Present

- Architected autonomous agent orchestration mesh (`fleetd`, Model Context Protocol integrations, Linear API, GitHub CI) connecting multi-agent developer workflows with zero manual overhead.
  - Structured cross-ecosystem technical collaborations and commercial frameworks for AI infrastructure, data engineering, and developer tooling startups.
  - Formulated enterprise software licensing terms, co-development agreements, and distribution models for autonomous systems.

Founder Institute / Decile Group — *Venture Partner & Ecosystem Architect* | 2018 – 2024

- Collaborated across accelerator cohorts and venture syndicates, advising B2B software founders on commercial channel strategy and enterprise sales.
  - Advised early-stage software companies on infrastructure partner programs, developer ecosystem collaboration, and commercial alignment.
  - Mentored founders on enterprise customer acquisition, partner agreement mechanics, and commercial distribution channels.

Sputnik Labs — *Founder & Chief Executive* | Enterprise Integration & Implementation Agency

- Founded and led enterprise systems integration agency Sputnik Labs, managing implementation alliances with enterprise software vendors (Siebel, Oracle, Microsoft).
  - Structured and managed enterprise software implementation contracts and delivery programs across premier banking and telecommunications clients.
  - Authored publications and professional materials on enterprise customer automation, analytics, and data architectures.

Siebel Systems — *Country Manager & Enterprise Solutions Director* | Platform Alliances

- Directed regional customer solutions and systems integrator alliances, aligning implementation partners around the enterprise CRM product suite.
  - Oversaw partner-led enterprise delivery and customer engagement frameworks across high-value accounts.

EDUCATION, FOUNDATIONS & PARTNER CERTIFICATION PLAYBOOK

- **M.S. in Computer Science & Applied Mathematics** • Technical proficiencies: Python, TypeScript, SQL, Git, Model Context Protocol • Publications on Enterprise CRM & Automation Systems.
  - **Partner Certification & Enablement Playbook (First-Build Mandate):** Approaching PostHog's partner certification not as a legacy bureaucracy, but as a lean, developer-first first-build track: open-source reference implementations, ClickHouse/PostHog integration sandboxes, and self-serve technical verification badges.
