PAVEL CHERKASHIN

Full-Stack Systems Engineer • GTM Product Architecture • Outbound Automation

San Francisco, CA (PT) | pavel@mindrock.capital | linkedin.com/in/pavelcherkashin | github.com/minutta | x.com/cherkashin

Operating Focus: *"Building resilient, full-stack GTM infrastructure that turns outbound signals into customer conversations. Grounded in foundational enterprise CRM architecture (Siebel Country Manager, Founder of #1 CRM integrator Eastern Europe, author of Russia's CRM textbook) paired with high-velocity modern full-stack shipping (TypeScript, React, Python, distributed agent meshes, and daily coding-agent fluency). 100% remote, 6 days/week 9am–6pm PT, shipping from Day 1."*

CORE TECHNICAL & GTM PRODUCT CAPABILITIES

- **Outbound Multi-Channel Automation:** Architecting signal-to-sequence pipelines across LinkedIn, X, and Email; inbox reply aggregation, rate-limiting, sender reputation shielding, and webhook-driven event syncing.
- **Full-Stack Product Engineering:** Fluent development in TypeScript, React, Next.js, Node.js, and Python (FastAPI/Django); state management, interactive CRM tables, and resilient REST/GraphQL APIs.
- **High-Scale Data & Queue Infrastructure:** PostgreSQL, Supabase, Redis queues, Celery/temporal job workflows, caching, and database query optimization for sub-second user queries under heavy load.
- **Autonomous Agent Meshes & AI Workflows:** Architect of fleetd multi-agent daemon, slot concurrency (WIP=1), proactive backlog vacuuming, zero-trust git handoffs, and programmatic verification harnesses.
- **Frontier AI Coding Velocity:** Daily power user of Claude Code, Gemini CLI, Cursor, and OpenAI tool APIs; shipping clean, tested production code at extreme velocity with disciplined git workflows.

GTM PRODUCT & SYSTEMS ENGINEERING EXPERIENCE

Sputnik Labs — *Founder & Chief Executive* | Enterprise CRM & Analytics

- Founded and scaled Eastern Europe's #1 CRM integration powerhouse (500+ professionals), designing customer data architectures, outbound sales automation, and enterprise marketing platforms.
- Led end-to-end CRM implementations for the 3 largest European banks and the third-largest mobile telecom operator, engineering real-time call-center analytics and high-volume customer pipeline engines.
- Authored the definitive Russian university textbook on CRM, establishing the foundational curriculum and enterprise practices for automated customer lifecycle management and sales workflows.

Siebel Systems — *Country Manager & Enterprise CRM Architect* | Enterprise Systems

- Directed regional operations and enterprise solution architecture for the world's premier CRM software vendor; advised C-level executives on sales automation, pipeline hygiene, and multi-channel marketing infrastructure.
- Supervised complex system integrations connecting CRM backbones to distributed telecommunications switches, banking transactional databases, and legacy mainframes.

Mindrock Autonomous Agent Mesh — *Principal Systems Architect* | 2024 – Present

- Built the monolithic fleetd daemon in Rust and Python, orchestrating concurrent autonomous coding agents across distributed nodes with proactive backlog vacuuming and zero-trust Git handoffs.
- Engineered real-time webhook dispatchers, Linear API connectors, and automated QA gates with programmatic layout verification and SHA-256 evidence sealing.

Vestor.in Distributed Deal Platform — *Founding Architect* | 2018 – 2024

- Built full-stack event-driven transaction platform managing $100M+ in deal volume, featuring automated investor-founder communication sequences, live portfolio dashboards, and sub-50ms API response times.

OPERATING POSTURE & FOUNDER ALIGNMENT

- **High-Intensity Execution:** San Francisco-based (Pacific Time), committed to 6 days/week 9am–6pm PT schedule. Deep appreciation for YC work ethic and shipping rhythm.
- **Day-1 Autonomy:** Zero handholding required. Able to pull tickets from the backlog, diagnose full-stack bugs across frontend and backend, implement clean fixes, test thoroughly, and push PRs.
- **GTM Empathy:** Having built and sold enterprise CRM solutions for over two decades, I understand exactly why sales reps live in their inbox and what drives conversion in modern outbound sequences.

EDUCATION & FOUNDATION

- **B.S. / M.S. Applied Mathematics & Computer Science:** Russian State University of Oil & Gas (Systems programming, discrete mathematics, and quantitative algorithm design).
