PAVEL CHERKASHIN

Partnership Wrangler (Remote) • Ground-Up Commercial Channels • System Integrator Alliances • Developer Platforms

San Francisco, CA (PT) / Remote | pavel@mindrock.capital | linkedin.com/in/pavelcherkashin | github.com/minutta | x.com/cherkashin

Operating Focus: *"Unlocking net-new commercial channels from the ground up for PostHog. Pragmatic, autonomous builder combining two decades of commercial alliance leadership (Country Manager at Siebel Systems, founder/CEO of systems integration firm Sputnik Labs with 500+ engineers) with hands-on technical fluency in modern API, data, and developer tooling ecosystems. Seasoned in enterprise software distribution, agency partner networks, and commercial co-selling architectures to turn technical platforms into high-velocity revenue channels. Built for small autonomous teams, zero bureaucracy, and rapid execution."*

CORE PARTNERSHIP, COMMERCIAL & TECHNICAL CAPABILITIES

- **Ground-Up Channel Creation:** Architecting and executing entirely new revenue channels from day zero; establishing commercial terms, commission/referral splits, and co-selling playbooks without middle management.
  - **Enterprise Channel Architecture:** Structuring cloud marketplace commercial models, reseller terms, and co-selling alignment; streamlining enterprise procurement cycles by leveraging enterprise cloud commitments.
  - **Developer & Platform Integrations:** Technical fluency to evaluate and co-develop integrations with modern developer platforms (Vercel, Supabase) and data stacks (ClickHouse, PostgreSQL), aligning product utility with partner incentives.
  - **Agency & Implementation Ecosystems:** Decades of leadership in systems integration; designing practical, code-driven partner enablement and first-build technical verification tailored for developers.
  - **Commercial Negotiations & Deal Architecture:** Direct hands-on drafting, contract structuring, multi-party revenue-share models, and enterprise software legal/procurement cycles.

PARTNERSHIP, COMMERCIAL & SYSTEMS LEADERSHIP EXPERIENCE

Mindrock Capital & Autonomous Systems Mesh — *Managing Partner & Lead Architect* | 2020 – Present

- Architected autonomous agent orchestration mesh (`fleetd`, Model Context Protocol integrations, Linear API, GitHub CI) connecting multi-agent developer workflows with zero manual overhead.
  - Structured cross-ecosystem technical collaborations and commercial frameworks for AI infrastructure, data engineering, and developer tooling startups.
  - Formulated enterprise software licensing terms, co-development agreements, and distribution models for autonomous systems.

Founder Institute / Decile Group — *Venture Partner & Ecosystem Architect* | 2018 – 2024

- Led ecosystem collaborations across global accelerator cohorts and venture syndicates, advising B2B software founders on commercial channel strategy and enterprise sales.
  - Curated platform perks programs, developer tool sponsorships, and co-marketing initiatives connecting early-stage startups with modern infrastructure providers.
  - Delivered practical workshops on enterprise deal mechanics, partner contract structuring, and commercial channel distribution.

Sputnik Labs — *Founder & Chief Executive* | Enterprise Integration & Implementation Agency

- Built and scaled leading regional systems integration firm Sputnik Labs (500+ engineers), managing enterprise implementation alliances with major global software vendors (Siebel, Oracle, Microsoft).
  - Negotiated and closed enterprise software distribution and implementation contracts for mission-critical deployments across premier banking and telecom operators.
  - Authored university textbook on enterprise customer automation and data systems; delivered specialized training programs for technical solutions consultants.

Siebel Systems — *Country Manager & Enterprise Solutions Director* | Platform Alliances

- Established the regional system integrator and consulting partner network from scratch, aligning premier consultancies and implementation firms around the enterprise product suite.
  - Negotiated strategic co-selling agreements and enterprise software contracts, establishing partner-led delivery channels across high-value accounts.

EDUCATION, FOUNDATIONS & PARTNER CERTIFICATION PLAYBOOK

- **M.S. in Computer Science & Applied Mathematics** • Hands-on engineering in Python, TypeScript, SQL, Git • Author of textbook on Enterprise CRM & Automation Systems.
  - **Partner Certification & Enablement Playbook (First-Build Mandate):** Approaching PostHog's partner certification not as a legacy bureaucracy, but as a lean, developer-first first-build track: open-source reference implementations, ClickHouse/PostHog integration sandboxes, and self-serve technical verification badges.
